ROs authorized by the STA

Swedish Shipowners' Association

## Reporting reg. Fuel Oil Data Collection System

Referring to the STA's letter of 3 April 2020, according to which the STA extended the deadline for submitting verified reports on fuel consumption to the STA from 31 March to 30 April 2020.

The STA has received indications that there is a delay in the process of collection, reporting and verification of fuel oil consumption data. We expect that delayed verification of reports will affect the deadline (31 of May) when a ship has to have a valid Statement of Compliance on board. Thus, we expect a situation when many Swedish vessels might be affected.

The STA therefore has decided to extend the deadline for the verification of fuel oil consumption data with subsequent issuance of Statement of Compliance until 30 of June 2020. Meanwhile a letter shall be issued by the RO to the affected vessels stating that the ship's fuel oil consumption data is under review. Furthermore, the RO shall send a notice to the STA to inform which Swedish vessels that are affected.

Please note that the deadline for submission of data to IMO Ship Fuel Oil Consumption Database (GISIS), which is 30 June 2020, cannot be extended.

Yours sincerely

Maria Sakari  
Maritime Inspection Coordinator
