ROs authorized by the STA

Swedish Shipowners' Association

Reporting reg. Fuel Oil Data Collection System

Referring to the new delegation agreement, in force 1st of November 2019, between the Swedish Transport Agency (STA) and the RO. According to the new agreement the RO is authorized to perform certification and services related to the IMO Fuel Oil Data Collection System. In this regard the RO shall *inter alia* verify fuel oil consumption reports, issue the Statement of Compliance and report to the IMO Ship Fuel Oil Consumption Database in GISIS.

The STA has noted that only 17 Swedish ships have been reported to GISIS.

The last date for ship owners to submit verified reports on fuel consumption to the STA was on 31 March 2020. However, due to the situation caused by Covid-19 the STA has decided to extend the deadline for those who experience difficulties in this regard. The reports should be submitted as soon as possible, but no later than 30 April 2020, i.e. the same date that applies for the reporting under the MRV Regulation.

Submitted reports should be verified by the RO and sent to the STA at:
MRV@transportstyrelsen.se

Please note that this extension reduces the time for the issuance of the *Statement of Compliance*, which shall be available onboard a ship at the latest on 31 May 2020. Please also note that this date, as well as the deadline to report to GISIS (30 June 2020), cannot be extended.

Yours sincerely,

Elin Roos

Head of Section for market supervision
